Use of lifts

The main lift is designed as emergency lifts that can be used in a fire. If the alarm sounds, the lifts will automatically travel to the ground floor and the doors will open. The lifts are disabled until the fire alarm is reset. In the event of an emergency a key driven override mechanism may be employed to enable the lift to travel to other floors. In addition, there is an intercom system connecting all floors. Only trained personnel are allowed to operate the lift in an emergency.

All Saints – Only the following trained personnel are allowed to operate the lift in an emergency: Operations Manager, Olivia Byrne, Dana Jenkins and Natalie Jenkins.
The override key is located on the notice board in the PA's office.

Seven Hills – Specific staff hold responsibility for operating the emergency lifts (M Turner, T Mycroft, J Bradford). The key for operating each lift is kept by the staff concerned. When they have evacuated all staff and students using the lifts, they should proceed to the assembly point and report to the Fire Officer either in person or by walkie-talkie

All students and staff with physical disabilities should have an individual Personal Emergency Evacuation Plan (PEEP). This should be completed by Learning Support and communicated to

other staff as appropriate. Due to the high number of students with physical disabilities in Seven Hills, it has been agreed that a **'class PEEP'** (appendix 2) should be completed rather than separate documents for individual students.
